Persistent Uniform Resource Locator

"PURL provides a level of indirection or caution message that allows the underlying Web address of resources to change over time without negatively affecting systems that depend on them."

Key Modules:

- URL Identifier
- URL Repository
- Link Root Manager
- Spam Manager

Benefits:

- Monitoring URL identifier, representation and access mechanism.
- Helps in identifying and entity URL whenever it needs to be separately distinguished.
- Global information system linked by a globally unique address space based on the Internet Protocol can be traced with ease.
- PURL infrastructure provides persistence through organizational backup, data integrity measures.
